Here's why ProTurf Irrigation Pipe is the best choice for underground sprinkler systems:

- Only the highest quality virgin resins are used to give our *ProTurf Irrigation Pipe* superior strength, flexibility, and durability.
- *ProTurf Irrigation Pipe* is consistently sized to assure properly fitted installations without fear of future leaks.
- The distinctive solid colors are co-extruded making *ProTurf Irrigation Pipe* easy to identify.
- *ProTurf* has a gun barrel smooth interior which results in minimal friction loss.
- *ProTurf Irrigation Pipe* is subjected to rigorous freeze/thaw tests that simulate 50 years of harsh weather extremes. (Tests show *ProTurf Irrigation Pipe* will expand 14% and return to its original size [water expands 6%]. This expansion takes the pressure off fittings and heads.)
- *ProTurf Irrigation Pipe* is backed with a Buyer's Lifetime Warranty which guarantees it to last as long as you own your property. (Please see warranty section of this brochure for details.)
